

Marathon Electric Water Heater

- Seamless, blow-molded, polybutene tank-impervious to rust and corrosion.
- Multiple layers of filament wound fiberglass give the tank unmatched strength.
- Polyurethane insulation helps reduce energy consumption.
- Recessed brass drain valve is out of the way of brooms and scrubbers.
- Pipe wrap energy saving kit included to achieve maximum energy savings.
- Marathon's lightweight tank is easier to maneuver and position.
- Water tight grommets keep out overhead moisture and condensation.
- Thermally fused upper element provides protection against dry-firing.
- Titanium lower element for superior resistance to lime build-up
- Enhanced flow brass drain valve.
